4. Lots are sold with all faults if any. Unless otherwise specified, items are sold untested with no warranty given to their mechanical or electrical operation.

10. Bidding can be done by:
  - a) submitting an absentee bid by phone, fax or email;

21. In the event of non-compliance with any of the above terms and conditions, the items bought will be re-sold at the risk of the former buyer, who will not be entitled to any proceeds or accrued profit (subject to the other conditions).
22. In these conditions the word 'auctioneer' means Trains, Planes & Automobiles.
23. The 'First Monday Toy Auction' will be held on the first Monday of each Month except January, unless otherwise advertised.
24. **Our thoughts on packing & postage**

Since this is an auction transaction, not a retail sale, we operate on behalf of our vendors and make no profit on the sales of items to subsidise packaging and postage costs, as many retailers and internet sellers do. We do not import or buy auction items from wholesalers, so we do not have a supply of appropriate packing boxes and need to find them. We charge a minimal packaging fee which only partly covers the costs of materials and labour.

We normally invoice for the goods first, then send a separate invoice for postage once we have calculated the costs. We pack items carefully so that they arrive in good condition. Whenever possible, goods are sent by a service that can be tracked and requires a signature upon delivery.

Many auction houses do not even offer a shipping service and require the purchaser to either pick the items up or arrange for an organisation such as "Pack and Send" to package and ship the items for them, generally at a significant cost.

We also offer purchasers the option of picking their goods up from one of our two locations, at Annandale (Sydney) or Mount Victoria (Blue Mountains).
